Instruction

The File-Tree of supplementary documents shows as follows:

- Supplementary Documents : (Root Folder) contains two subfolders and a README file
  - EC.dict
    - Brand
    - Product
    - Model
    - Material
    - Specification
  - NEWS.dict
    - Additional Name
    - PERSON

This is a list of supplementary documents that used in our experiments and mentioned in our paper.

We use two datasets in the experiments: one is from e-commerce domain (EC) and another is from news domain (NEWS).

Dictionaries of five entity types in e-commerce domain are involved in the folder "EC.dict". The folder named "NEWS.dict" contains PERSON name dictionary that collected from labeled data and additional name list.
